Distribution of annual min during each 44–year window

Legend:
- 2017
- 2022
- 2023

Density

annual min

The lines are the observed min for 2017, 2022 and 2023
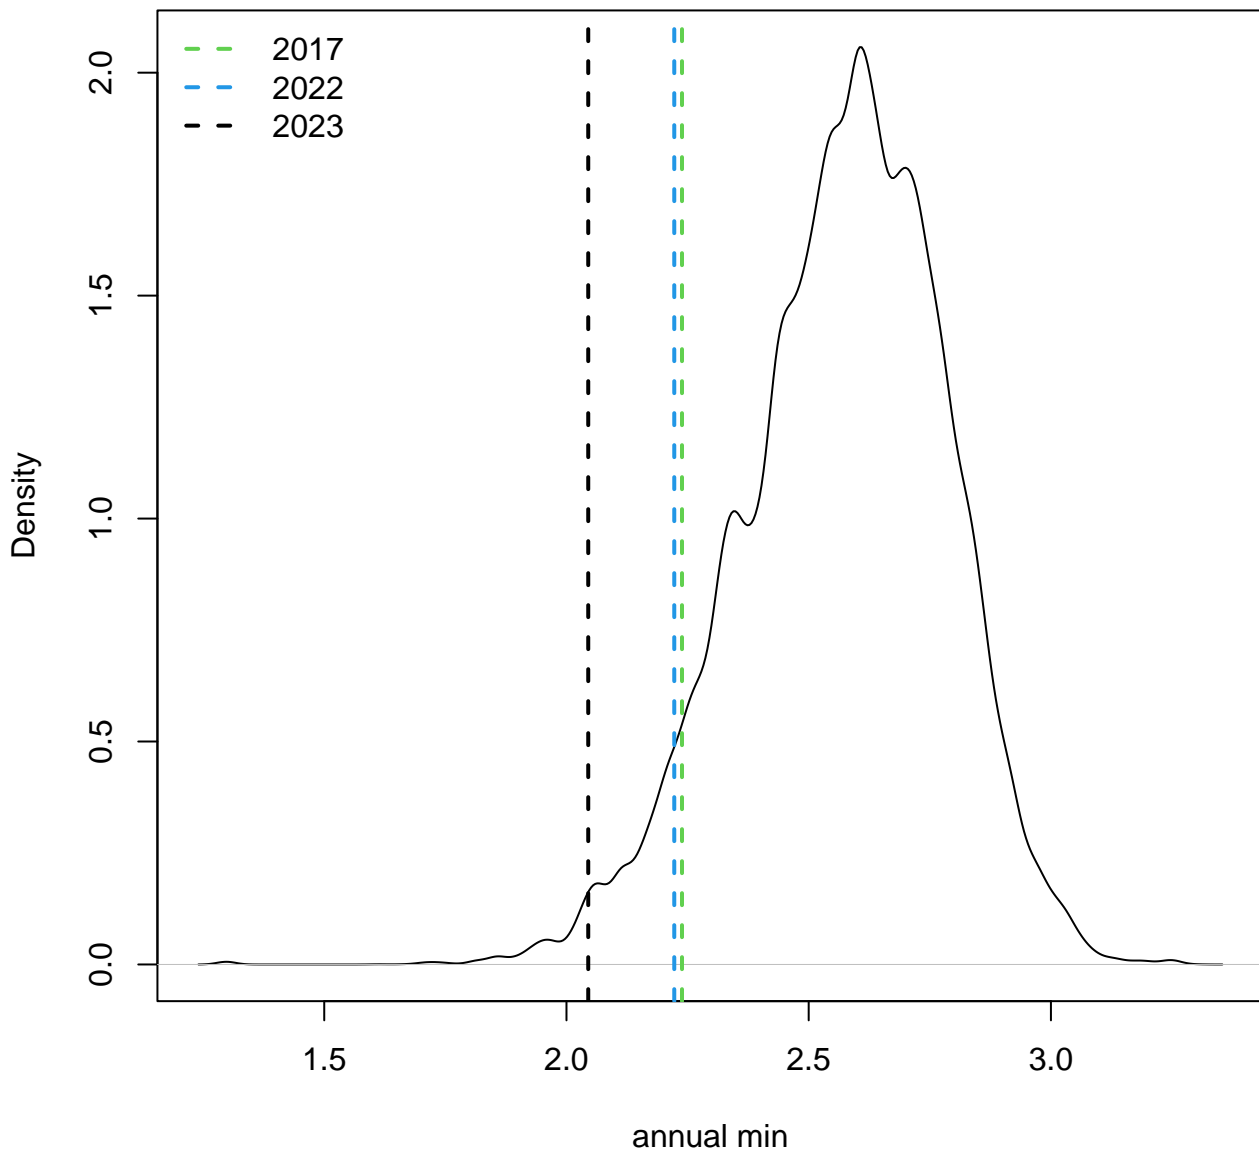

Distribution of annual max during each 44−year window

2012
2014

Density
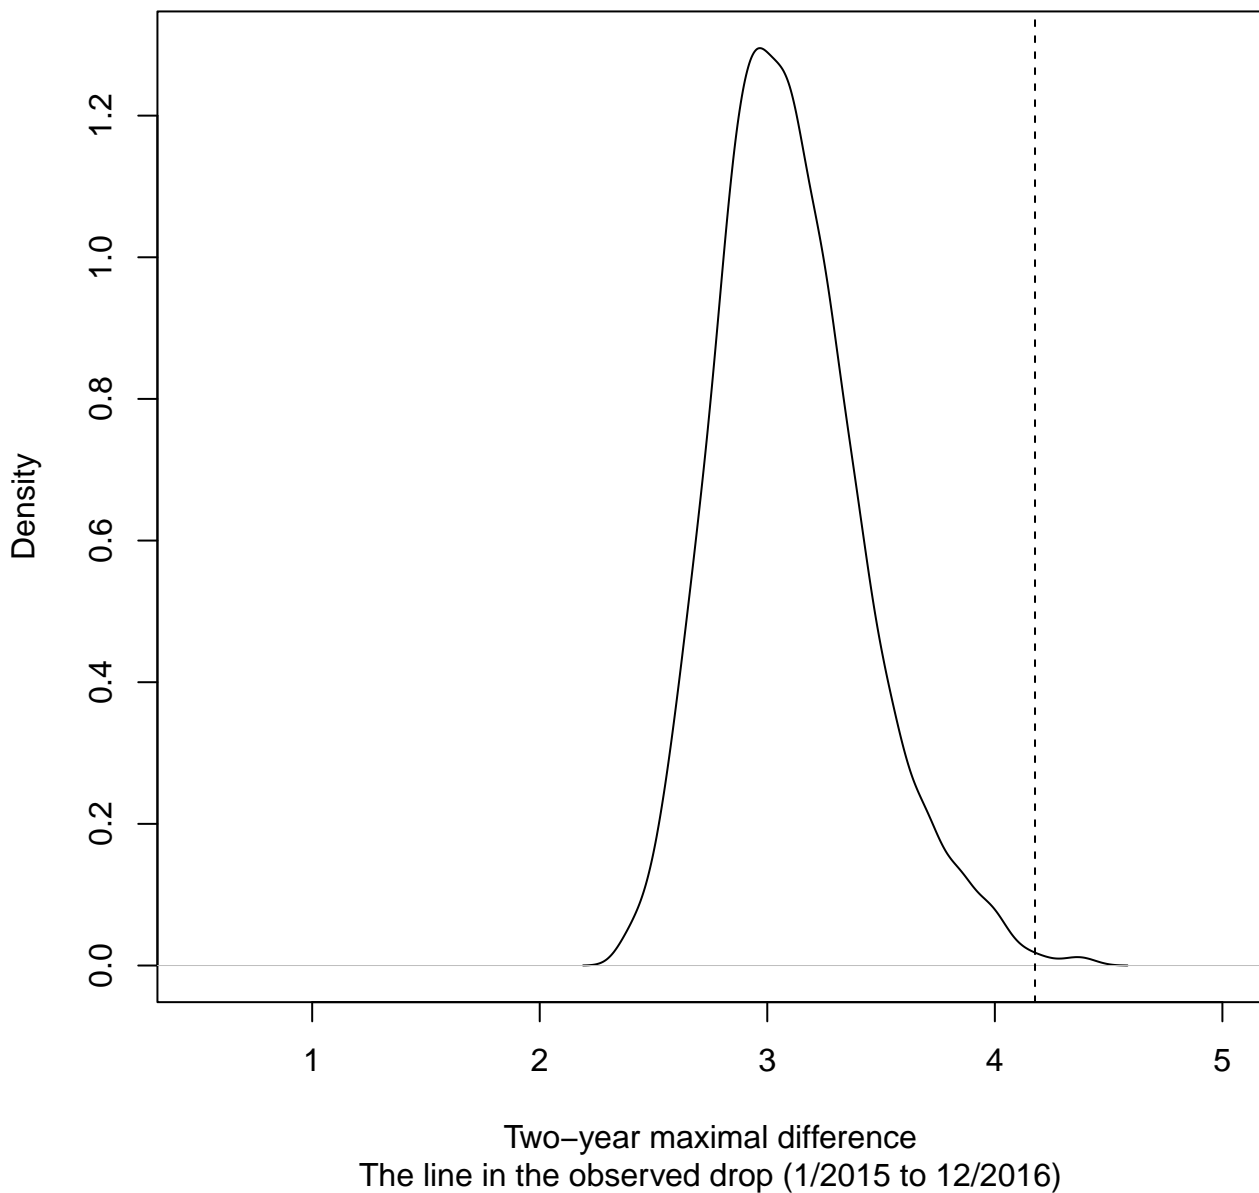

annual max
The lines are the observed max for (September) 2012 and 2014
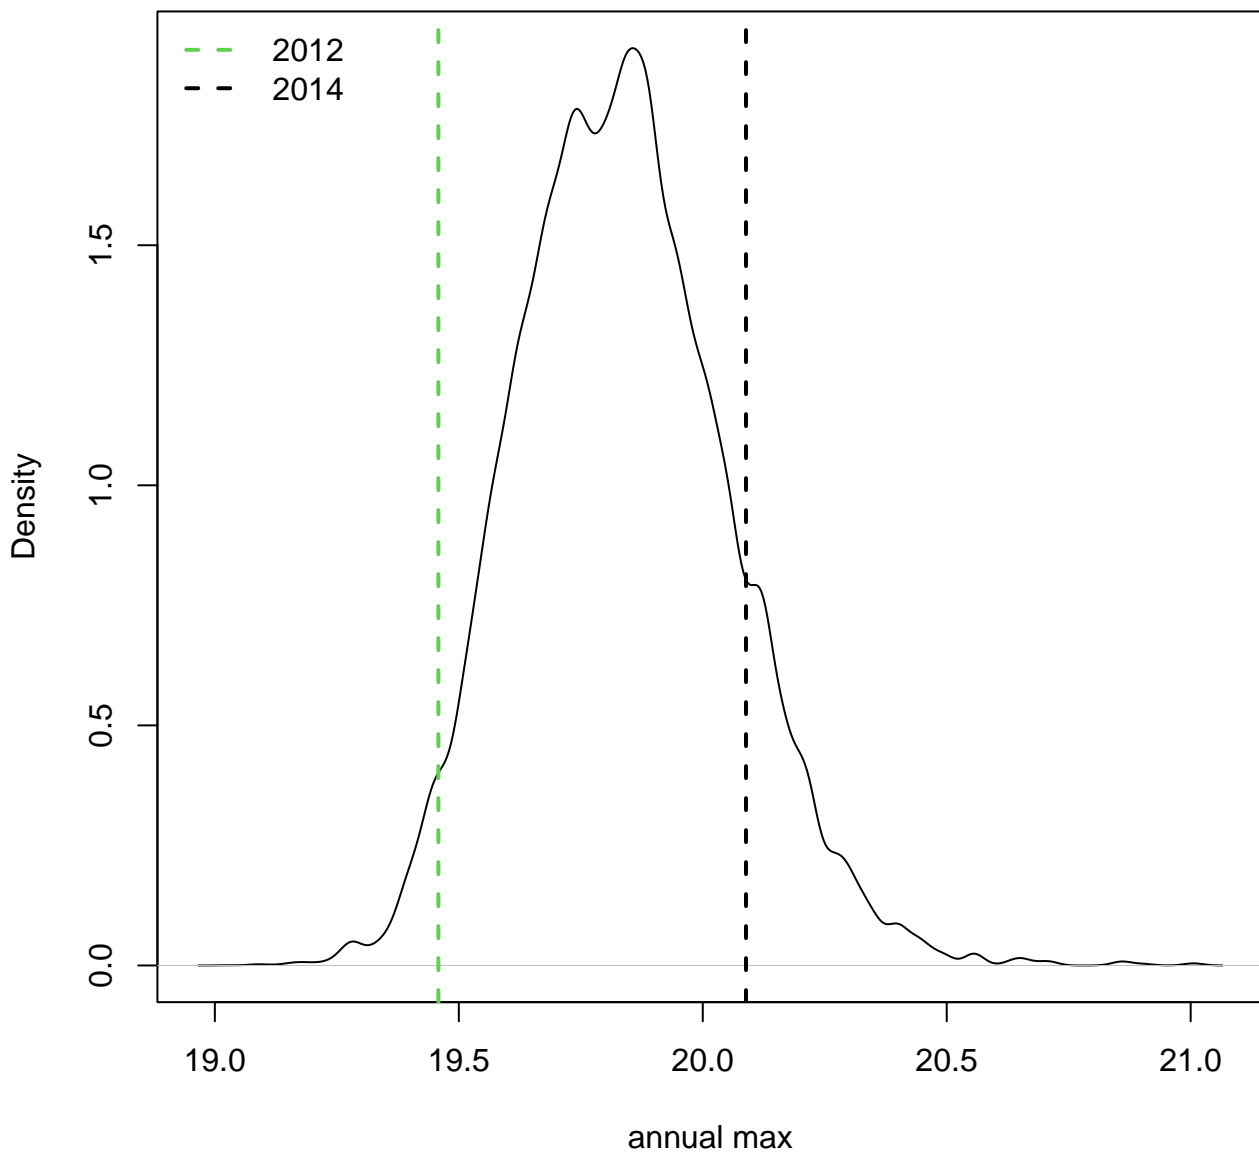

Distribution of Winter average SIE during each 44−year window
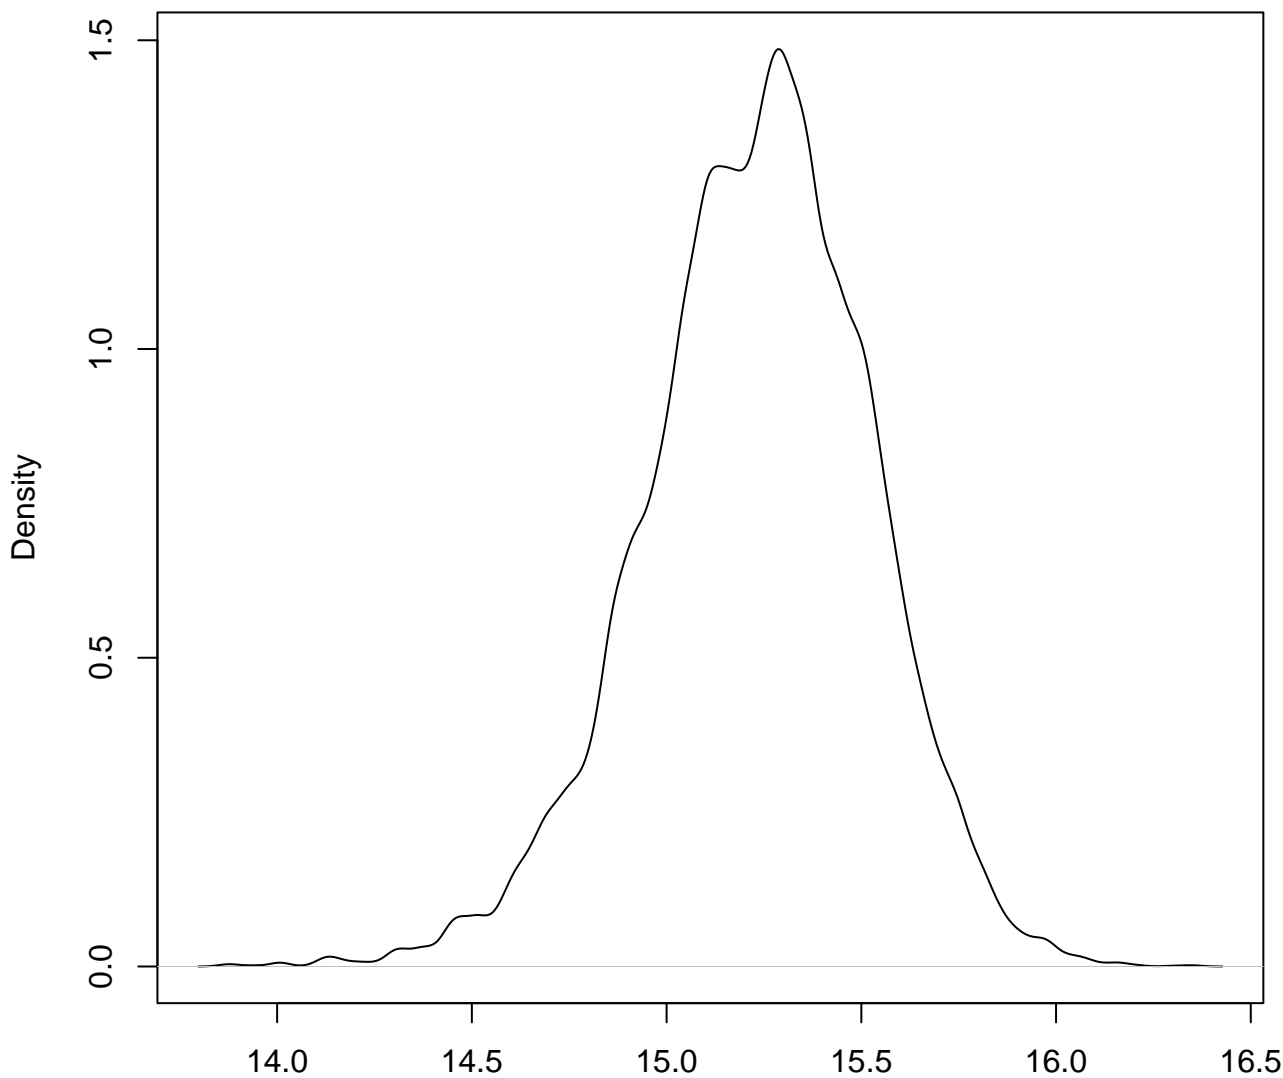

Winter average SIE
The line is the observed Winter SIE for 2023

seq(1979 + 0.5/12, 2020 + 11.5/12, by = 1/12)

Distribution of max drops during each reconstruction

Density

Two−year maximal difference
The line in the observed drop (1/2015 to 12/2016)

Distribution of max drops during each 44 year period over the reconstruction

Density

Two−year maximal difference
The line in the observed drop (1/2015 to 12/2016)
